Ms. Mary Nichols, Chair
California Air Resources Board
P.O. Box 2815/1001 "I" Street
Sacramento, CA 95812

Subject: Consideration of full CARB Board discussion on the status of the
Enhanced Vapor Recovery/In-Station Diagnostics retrofit deadline, April,
2009.

Dear Chairperson Nichols:

We, the undersigned, respectfully request that you schedule a full Board discussion on the status of the Enhanced Vapor Recovery/In-Station Diagnostics retrofit deadline, April, 2009. It is our understanding that you have denied a request from the California Independent Oil Marketers Association to hear an update from your staff at the May Board meeting.

The latest statistics show that over 10,000 sites still need to be permitted and retrofitted. This means approximately 950 sites per month, between now and the April, 2009 deadline, will have to be finalized. We have serious concerns regarding how this is going to be accomplished, and believe a full public discussion of where things stand is in order. If there is the potential for closure of service stations, this issue needs to be carefully, and publically, reviewed.

We ask that you schedule a Board briefing at the May 22-23 Board meeting.

Sincerely,

GEORGE C. RUNNER, JR.
Senator, 17th District

Ms. Mary Nichols, CARB Chair
